

# Mental Health Allied Health Early Careers Program

The Allied Health Early Careers Program is committed to the ongoing development of our mental health workforce by ensuring that early careers clinicians are provided with the required learning opportunities in a supported and structured program. The program actively promotes a pathway from student placement through to continued employment and is inclusive of the following disciplines:

**Dietetics**  
**Exercise Physiology**  
**Occupational Therapy**

**Social Work**  
**Speech Pathology**

## What we offer

## Clinical Rotations

We endeavour to ensure graduates are offered ideally a bed based and community-based rotation to maximise their learning opportunities across the two year program. Rotations are offered across a range of programs including;

- Adult community teams
- Adult inpatient units
- CCU's and PARCs
- Older adult community teams
- Older adult inpatient units

## Early Career Program - How to apply

Allied Health graduate positions for our January 2025 intake will be advertised on the NH Career website, or contact Michelle Wines - AH Early Careers Program Coordinator 0460 421 431, or [Michelle.wines2@nh.org.au](mailto:Michelle.wines2@nh.org.au)

## Student Placements

Student placements are offered for allied health students across a range of settings within the MH Division. Student placements are supported by dedicated discipline specific clinical educators.

We have partnerships with multiple Universities including (but not limited to):

- LaTrobe University
- University of Melbourne
- RMIT
- Swinburne University
- Deakin University

For more information please contact your University Fieldwork Coordinator.
